

Concord is a cooperative game based on the popular deck-building game called Dominion. It incorporates the 7 Principles of Responsible Management (PRME) and the 17 Sustainable Development Goals (SDGs). The game was created for educational purposes only and is not intended for sale.

GAME OBJECTIVE

To attain all 17 SDGs.

CARD TYPES

- Energy
- Actions
- SDGs
- Roles
- Leader
- Time Counter

Card types are, in most cases, written on the bottom of the card.

Energy, Actions, and SDGs card types all have an energy cost to obtain given in the lower left corner of the card.

SETUP

Create **Supply** Area:

All cards face up. SDGs in order, show SDG 1 on top.

SETUP

Energy cards are used to buy other cards and have three energy values: 1 (thermal), 2 (electricity) and 3 (atomic).

Action cards have special abilities and represent the 7 PRME principles: Purpose, Values, Teach, Research, Partner, Practice, Share.

SETUP

Buying cards of the **SDGs** type meet the objective of the game.

They:

- Increase in cost as more are attained and according to their associated 5Ps: People (3 energy), Prosperity (6 energy), Planet (9 energy), Peace (13 energy) and Partnerships (17 energy).
- Have non-beneficial Calamity effects when NOT attained, i.e., not in a player's deck. Unobtained calamity triggers at the beginning of each round, unless it says otherwise.
- Have +2 Energy value when added to a player's deck.

GAMEPLAY

This is a cooperative game to achieve as many SDGs as possible within a set time.

One player is designated as the leader of a round with the Leader card. A round is tracked using the Time Counter. Each player takes 1 turn in a round.

The **game ends** when all 17 SDGs are bought OR when a certain number of rounds are completed on the Time Counter: 8 rounds for 5 players, 12 rounds for 4 players, 16 rounds for 3 players, and 20 rounds for 2 players.

SETUP

Each player starts with a deck of 10 cards. A hand consists of 5 cards.

First, give each player 7 Thermal Energy cards.

Then, to determine the remaining 3 cards in each player's starting deck, each player chooses a different starting role.

GAMEPLAY

Starting with the leader, the game is played in turns, each turn consisting of 4 phases:

1. **Actions** - Play one Action card from your hand.
2. **Buying** - Use Energy cards to buy one card from the Supply. Any SDGs bought now go into the deck of the player who bought it.
3. **Saving** - Any unused Energy cards can be set aside for the end of the round.
4. **Cleaning-up** - Discard all cards to your discard pile, whether played or not, then draw 5 new cards from deck.

SETUP

Starting Roles and Cards:

1. **Scientist** – Research, Practice, Share
2. **Academic** – Purpose, Research, Teach
3. **Politician** – Purpose, Partner, Values
4. **Entrepreneur** – Values, Partner, Practice
5. **Activist** – Purpose, Teach, Share

Each player shuffles deck and draws 5 cards for their starting hand.

GAMEPLAY

At the end of each round, any saved Energy cards can be pooled across all players to make only 1 additional purchase of an SDG card – no other cards may be purchased during this time. The SDG card bought in this way goes into the leader's deck, even if they did not contribute any energy.

Any Energy used by players is returned to their respective discard piles.

The Leader card rotates clockwise to start the next round.

GAMEPLAY

A note on terminology:

Discarding a card means placing it into your discard pile. This card will eventually be shuffled back into your deck.

Trashing a card means removing it from the game entirely. It goes to the trash pile and is no longer part of your deck.

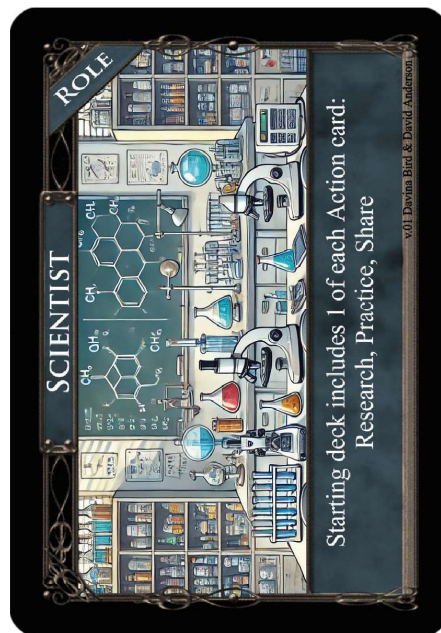

Some Actions have effects that allow you to play additional actions (+1 Action), draw more cards (+1 Card), buy more than one card a turn (+1 Buy) or give extra energy.

ENDGAME SCORING

Count the number of SDGs (1-17) attained. If you have achieved:

- **17** - congratulations on your utopia.
- **15-16** - well done on your almost perfect society. Better luck next time.
- **11-14** - you have avoided destroying the planet with minimal suffering, but you still have lots of problems.
- **10 or less** - if aliens visited, they would think your civilisation is too savage to add to their tourist packages.
